

The background of the page is a vibrant, cartoon-style illustration. At the top left, a boy with dark skin and curly hair is inside a small, white, rocket-like vehicle with a blue stripe, flying through a blue sky with white clouds. To the right, a black drone with four rotors is flying. In the upper center, there's a large, grey, cratered moon and a yellow planet with a red ring. Below these, a slice of pepperoni pizza is being delivered in a white box by a drone. On the left side, a city skyline is visible with several tall buildings. In the bottom left, a boy with brown hair, wearing a red and yellow shirt and blue pants, is running on a black, curved surface. In the bottom right, a boy with brown hair, wearing a blue and yellow jacket, is holding up a blue card that says "ASS19" and "00:00:00". In the center, there's a small, circular inset showing a close-up of a boy's face with dark hair and a serious expression. At the bottom, a white high-speed train is moving along a track.

Eren Yeager

Eren has the power to become a titan, after being injected when he was a baby by his father. His powers are extremely helpful for humanity. Though he contains the founder titan, he hasn't mastered all his skills because he doesn't have royal blood. However, Eren still fights back strong when it comes to his close-ones. Eren knows weak points of titans and uses that knowledge to defeat other titans in his titan form.

Eren is a sweet character but has gone through a lot. His mother was eaten in front of him as well as his friends. As a result, when it comes to his mates and close ones he doesn't hesitate and does whatever he can to help. However, he can get carried away when it comes to missions. He wants to be the one who protects others and not the other way around - he doesn't like it when he's told what to do. He wants to have a main role in saving humanity and he does whatever he can to prove that he is capable of it.

Eren Yeager is also known as the humanity saver. Just like everyone else he still has difficulties to overcome, but he tries his best. You might spot him when he turns into a 6 feet titan. Eren can order others to do things with his voice and contains a strength that others do not have. As a result, he has saved many lives as he sealed Wall Maria and saved many homes of naïve people.
