

## The four amazing powers of Ryker...

The elusive Ryker stands in a futuristic dimension wearing a deceptively simple black t-shirt and pants. Don't let this simple outfit fool you. He is not too brave but has a peculiar personality: I mean he has a double life!

On the spot he can transform into a TITAN with super alien strength. He can use his 10 tails, that only he can use, because he is a master down on planet earth.

Ryker's strength outdoes even his sensei's even though he is a 14-year-old teenager! Using the 10-tail and powerful rase Ngan move at the same time, he can create the mythical power of the 7 DEADLY SINS that can destroy anything in their path. He can also use his fire bend and shadow clone to become immortal.
