

## Iron lady

She wears a costume of silver and blue, with a purple colour for the fire. In her costume, the hands aren't attached so she will wear gloves and the feet will have boots. But don't worry they won't come off unless someone takes them off.

Iron-women is able to save people without destroying the land and ground. iThis is important since ironman saves people by destroying the land and the ground - how would people walk on that? That is why iron- lady won't do that. She is a very nice person and treats kids like her own kids. She is also a university student who studies and helps the world at the same time. That is why she is great.

In the blink of an eye, she appears like a flash. I don't know how, but one second she is right in front of you then she is a mile away! Iron-lady's skills are outstanding. When you say that the world is in danger, then she will save it in a second. You won't even know how she saved the world - that is why her skills are very SECRET!!!!

In real life she is very quiet and nobody knows that she is Iron lady. They only know her as an ordinary girl called Emma. This is why she is know as iron lady and not iron Emma because if we call her iron Emma then people will know that Emma is the one who has been saving the world, and Emma doesn't want people to know that! When she turns into iron lady, then she is a new person - not the ordinary Emma that is quiet, but funny, generous and kind.
